Opposing Racism in Europe

SCORE - PRESENTATION TO LLEIDA UNIVERSITY

SCORE is an European project joined by 'Juntas En la misma dirección Tenerife?' through the Observatory of Immigration of Tenerife (OBITen) and the General Foundation of the University of La Laguna (FGULL) as representative of the island of Tenerife.

This project is a two year initiative, where 13 entities from different European countries create a coalition of territories to identify and train in the fight against discrimination and racism in the field of sport

The University of Lleida contacted interested in learning about the SCORE Project and it was decided to organize an online session for 2nd Year Teaching students of the Faculty of Education.

With a duration of one hour, the work carried out by 'Juntas En la misma dirección' in favor of intercultural coexistence on the island of Tenerife is presented first, to then present the SCORE Project, its objectives and phases of development at local, national and European level.

We close the session offering a space for debate on the inclusion of minorities, racism and discrimination in sports within educational centers, where several participants share their reflections as future teachers.

Objectives

Promote intercultural training and awareness actions

Promote networking in contexts of diversity, improving communication, coordination and cooperation between public institutions, private entities, associations and citizens

Promote the culture of dialogue, fostering meeting and relationship spaces between those who do not usually coincide.

Collaborating entity: Universitat de Lleida

Participants: 170 students

Date: 26 de octubre de 2022

Place: online
